FACIALS

algologie FRANCE We use and recommend the French marine based products Algologie.

Our facials are so much more than just a facial. You will also receive a nourishing eye treatment and massage of the feet, scalp, face, neck, arms and hands.

DEEP CLEANSING FACIAL

This purifying facial utilises the healing and regenerating

properties of honey and propolis, strengthening the natural defences of the skin and chlorophyll which promotes cellular respiration. Your skin will feel glowing, smooth and nourished.

ANTI-AGEING FACIAL

Algologies anti-ageing range has algae based properties that reduce the appearance of fine lines and wrinkles, stimulate cellular renewal and improve the appearance of the skin. The inclusion of Vitamin C acts as an anti-oxidant and brightens the skin and Vitamin E fights against free radicals that contribute to the premature ageing of your skin. Your skin will feel soft, supple and radiant.

FULL BODY SCRUB AND MOISTURISING MASSAGE (Salon only)

We will rid your skin of dry, rough layers then use hot towels to remove the scrub, followed by a full body, moisturising massage, focussing on those tight areas. Your circulation will be stimulated and your skin will be smooth and glowing.
